

# SOLAR ONE

Solar è il sistema di schermatura antivento dotata di stecca di trazione di tenuta.

E' integrabile nelle pergole, verande e porticati che richiedono protezione dall'umidità, vento, pioggia e dall'irraggiamento solare, in funzione della scelta del tessuto che tra filtranti, reti, pvc e cristal, modula la funzionalità.

Solar is a wind-proof drop awning, equipped with traction slats.

It is designed for perfect integration into pergolas, verandas and porches requiring protection against humidity, wind, rain, sunlight or to bounding open spaces, depending on the choice of fabric, selection between filter fabric, nets, PVC and crystal.

**Caratteristiche Tecniche**

---

Prodotto brevettato

Dimensioni Solar Plus 400 x 250 cm

Tenda con telo e stecca di trazione

Struttura in alluminio estruso con componenti Inox

Guide laterali con guarnizioni e spazzolini

Chiusura a scatto automatico

Movimentazione manuale con argano

Tenuta all'acqua ottimale

Prodotto con marcatura CE UNI EN 13561

Made in Italy

---

**Complementi**

---

Movimentazione automatizzata con radiocomando

---

**Vantaggi**

---

Predisposizione impianto elettrico

Automatismi preregolati

Pre-assemblaggio testato
